

STUDENT PAPER AWARDS

2021 ICSA APPLIED STATISTICS SYMPOSIUM

AWARD INFORMATION

- **Number of submissions:** 46
- **Number of awards:** 6 (5 student paper award; 1 Jiann-Ping Hsu Pharmaceutical and Regulatory Sciences Student Paper Award)
 - Each submission was rated anonymously by two reviewers on a scale of 1 (poor) – 5 (excellent)
 - Papers of highest scores were picked
- **Committee chair:** Lu Mao (UW-Madison)
- **Committee members**
Peng Ding (UC Berkeley), Rui Duan (Harvard), Fei Gao (Fred Hutch), Noorie Hyun (MCW), Edward H. Kennedy (CMU), Muxuan Liang (Fred Hutch), Weijie Su (Penn), Yifei Sun (Columbia), Lu Tang (U Pitts), Zhenke Wu (UMich), Ting Ye (UW), Ni Zhao (JHU)

WINNER – BING LI

- Bing Li
PhD student, Department of
Biotatistics, Brown University

- Winning paper (JP Hsu Award)
*Transportation of Area Under the ROC curve to
a Target Population*

WINNER – YUJIA DENG

- Yujia Deng
PhD student, Department of
Statistics, University of Illinois
Urbana Champaign

- Winning title
Query-Augmented Active Metric Learning

WINNER – SUBHANKAR BHADRA

- Subhankar Bhadra
PhD student, Department of
Statistics, North Carolina State
Universities

- Winning paper
*Scalable community detection in massive networks via
predictive inference*

WINNER – YING ZHOU

- Ying Zhou
PhD student, Department of
Statistical Sciences, University
of Toronto

- Winning paper
The Promises of Parallel Outcomes

WINNER – RUI MIAO

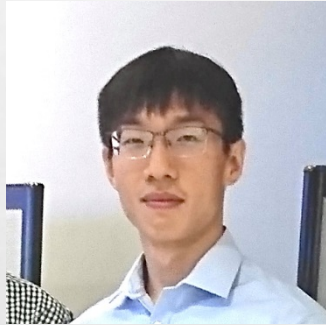

- Rui Miao
PhD student, Department of
Statistics, George Washington
University

- Winning paper
*A Wavelet-Based Independence Test for Functional
Data with an Application to MEG Functional
Connectivity*

WINNER – ZIYAN YIN

- Ziyang Yin
PhD student, Department of
Statistical Science, Temple
University

- Winning paper
*Linear Models with Distributed Data and
Communication-Efficient Estimator: Limiting
Distribution and Its Approximation*

CONGRATULATIONS
